

# Single-use Plastic Ban in Australia

## What is Banned\*

Single-use  
Plastic Straws

Single-use  
Plastic Stirrers

Single-use  
Plastic Cutlery

EPS (foam)  
Containers & Cups

Single-use Plastic  
Plates

Single-use Plastic  
Unenclosed Bowls

## Bonson Polypropylene Containers are NOT Banned

Packaging/containers are not part of the ban if they are a part of shelf-ready, pre-packaged products and do not fall under the 'problematic and/or unnecessary'^ sustainability guidelines. This includes Bonson's polypropylene FMCG packaging products.

\*General guideline only. Updated September 2023. For more information about the ban including details specific to states, please visit the The National Retail Association website at [www.nationalretail.org.au/policy-advocacy/action-on-single-use-plastics/](http://www.nationalretail.org.au/policy-advocacy/action-on-single-use-plastics/)

Packaging a unique advantage

# Sustainable Packaging Materials – Guide

Our bonson polypropylene  packaging is designed with sustainability in mind and manufactured under stringent protocols.

## Recyclable & recycled plastics

We use packaging made with plastics numbered , , . They are valuable plastics recommended by waste authorities that can be recycled again and again.

Recycling bins

## Natural packaging

We use packaging that are made with rapidly renewable kraft, paper, sugarcane material and more, they can be turned into more resources after use.

Commercial/home compost bins or recycling bins

## Getting your ARL? We can help

Bonson-Savpac Pty Ltd are an APCO member. We can provide an independent PREP Report (Product Recyclability Evaluation Portal) to show recyclability and applicable Australasian Recycling Label (ARL) for our customers products.
